is pleased to invite you
to join us for a morning seminar by

**Professor Ian Frazer**
followed by shorter presentations by four of
the Centre’s emerging research leaders

**Professor Ian Frazer**
*Prospects for Global Eradication of HPV infection*

---

**Dr Ian Frazer** is a clinician scientist, trained as a clinical immunologist in Scotland. As a professor at the University of Queensland, he leads a research group working at Translational Research Institute in Brisbane, Australia on the immunobiology of epithelial cancers. He is recognised as co-inventor of the technology enabling the HPV vaccines, currently used worldwide to help prevent cervical cancer. He heads a biotechnology company, Admedus Vaccines, working on new vaccine technologies, and is a board member of several companies and not for profit organisations. He is current president of the Australian Academy of Health and Medical Sciences, and a member of the Commonwealth Science Council.

He was recognised as Australian of the Year in 2006. He was recipient of the Prime Ministers Prize for Science, and of the Balzan Prize, in 2008, and was elected Fellow of the Royal Society of London in 2012. He was appointed Companion of the Order of Australia in the Queen’s Birthday Honours list in 2013.
