Abdominal Surgery

Join Giselle and Lynne for an engaging evening on abdominal surgery. Participants have the opportunity to submit their own cases prior to the event and have them discussed anonymously on the night. Interesting cases from Murdoch’s Veterinary Hospital will also be presented.

This will be an informal, interactive case discussion in the Q&A style with the focus on practical solutions to abdominal surgery problems commonly encountered in small animal practice.

At the end of the night you will walk away with practical, up-to-date approaches, tips and solutions for your own abdominal surgery cases.

This evening will be recorded and access to the recording can be purchased through Murdoch’s CVE office. The recordings include audio, slides and notes.

Murdoch’s small animal surgery team represents more than 70 years of combined surgical experience!

This evening is an opportunity for participants to have their own cases discussed and any questions answered.

This evening has been awarded 1.5 CPD Points for the live lecture (S1) and 0.75 CPD Points for the recorded lecture (U3) by the VSBHK.
