

## Message from Dubai Dean

The Murdoch University International Study Centre Dubai is the branch campus of Murdoch University located in the heart of Dubai International Academic City. The campus is overseen and managed operationally by a Dean and Academic President who is resident in Dubai. The campus was established in 2007, and we remain one of only two Australian universities offering comprehensive degree programs in the United Arab Emirates. Murdoch Dubai has a truly multinational and cosmopolitan student body, with a particular emphasis on students drawn from across the Middle East, North African and Indian Ocean regions. With some 500 students, taught by academics from 14 countries, it is a stimulating and vibrant place to learn. At the undergraduate level, we offer courses in Business (finance, management, and marketing), Information Technology (computer science and business information systems) and Media and Communications (journalism, public relations, and screen production). At the postgraduate level, we offer a Master of Business Administration, a Master of Human Resource Management, and a Master of Education. With a growing reputation in the region for academic excellence and positive student experience, Murdoch Dubai exemplifies our university's commitment to teaching and scholarship.

Dr Max Sully  
Dubai Dean
