

8. If you have entered your password correctly you will get the 'Welcome to gateway' message and how long you have been logged in.

```
gateway.murdoch.edu.au - PuTTY
# Authorised clients only. Network usage is monitored to ensure #
# compliance with university and AARNet rules. Logging in implies #
# acceptance of Murdoch University's Email and Internet policy: #
# #
# http://www.murdoch.edu.au/admin/policies/email.html #
#####
This is the new gateway front-end, which now supports SSH (hint, hint).

Tip: PuTTY users should be using version 0.57 or newer, as earlier
versions have security vulnerabilities! Version 0.60 was
released on April 29; get it here:
http://www.chiark.greenend.org.uk/~sgtatham/putty/
Password:
Linux gateway 2.6.18-rc4-compsrv #5 SMP Fri Aug 11 17:19:41 WST 2006 i686 GNU/Li
nux

Welcome to gateway.

Press Enter to log out.

You have been logged in for 0 minutes.
```

9. You must leave the window open (you can minimize the window) whilst you are connected to the external internet.
10. When you wish to disconnect your Gateway session, maximise the window and press 'enter'.
